<i>Annotation Strategy Used</i>	<i>Example of that Strategy</i>	<i>Effect that Strategy Should Have on You as a Reader-- Metacognitively</i>
question written on side	personal question: Is this how "intelligence" (as a label) works?	This question is evidence that I am considering not only what the author writes, "I'm highly intelligent and I expect others to think so," engaging his thought. I'm also noting this thought to question his understanding and create my own interpretation.
